

YSR/11-18 - Competence Scale Scores

ID: c33d2252f1a04b529

Gender: M

Date Filled:

Clinician: Cramer

Informant: Jose Ramirez

Society: ASEBA Standard

Name: Jose Ramirez

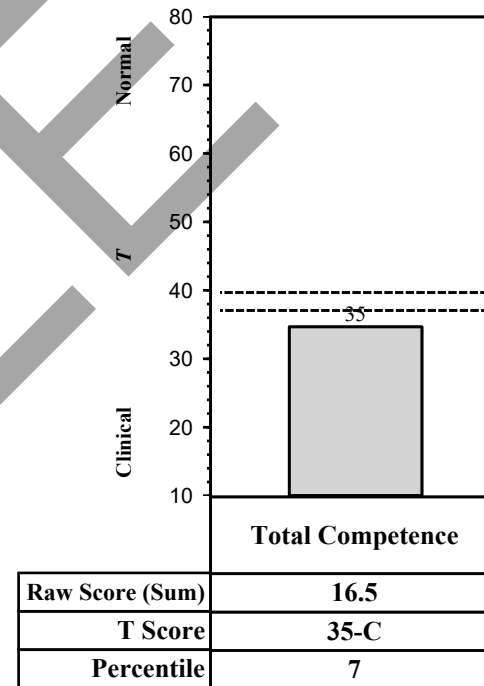

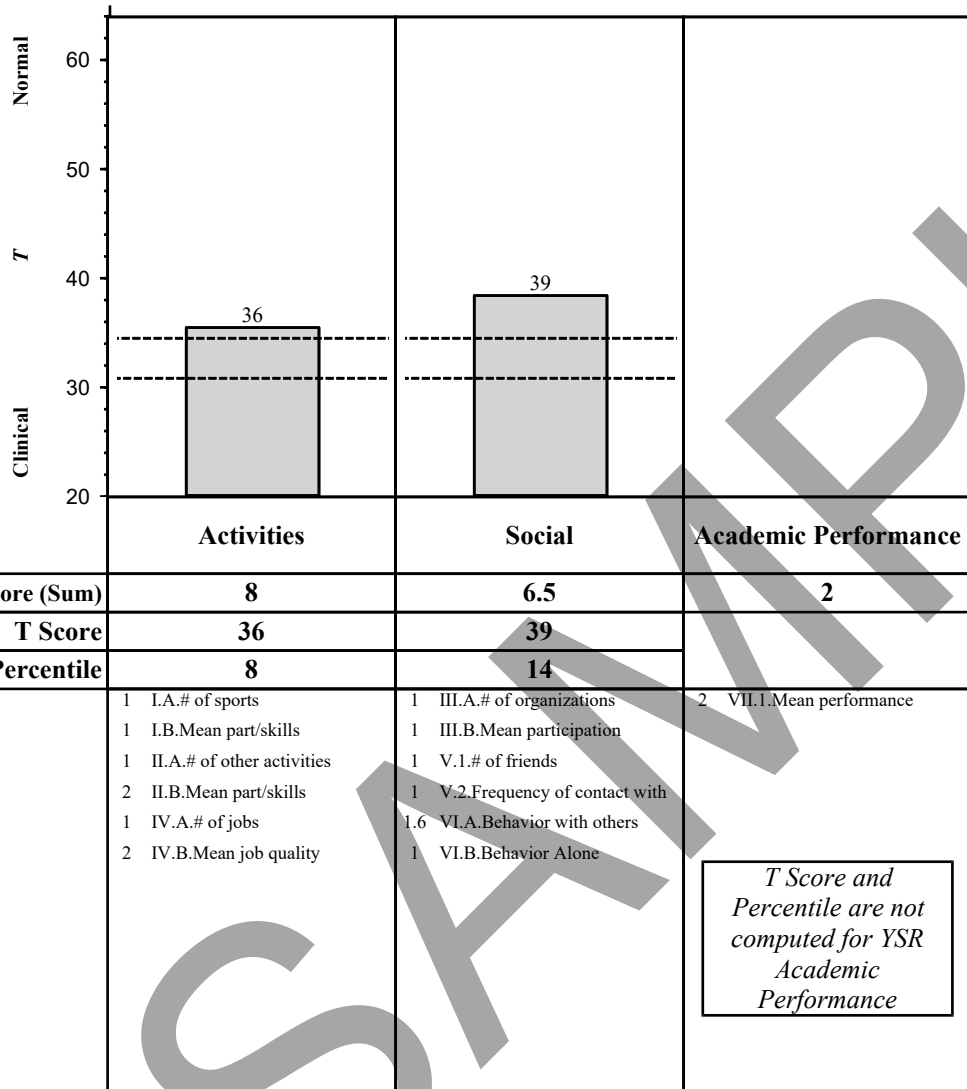

Age: 8

Birth Date: 2010-01-13

Agency: Hmo

Relationship: Self

Verified: Yes

B = Borderline clinical range; C = Clinical range; Broken Lines = Borderline clinical range

Total Score for each scale is rounded to nearest 0.5.

On Social Scales, if one item is missing, the mean of the other items is substituted.

** nc = The scores are not computed due to missing data.*

The Youth Self-Report for Ages 11-18 (YSR 11-18) was completed by Jose, to obtain his perception of his competencies and problems. Jose reported that he participates in one sport and that he has interests in one hobby. He belongs to one social organization, team, or club. Jose reported that he has one job or chore. Jose's responses indicate that he has one close friend. Jose rated his school performance as Average in English or Language Arts, Average in History or Social Studies, Average in Arithmetic or Math, Average in Science.

Jose's Total Competence score was in the clinical range below the 10th percentile for self-reports by boys aged 8. Although his scores on the Activities and Social scales were all in the normal range, their sum was low enough to produce a Total Competence score that was below normal range.

On the YSR 11-18 problem scales, Jose's Internalizing Problems, Externalizing Problems and Total Problems scores were all in the clinical range above the 90th percentile for boys aged 8. Scores on all rated syndrome scales were in the clinical range above the 97th percentile.

On the YSR/11-18 - DSM-Oriented Scales, Jose's scores on all rated scales were in the clinical range above the 97th percentile.

On the YSR/11-18 - 2007 Scale Scores, Jose's score on the Positive Qualities scale was in the normal range. Jose's scores on the Obsessive-Compulsive Problems and Stress Problems scales were in the clinical range above the 97th percentile. These results indicate that the DSM should be consulted to determine whether Jose's meets diagnostic criteria for Obsessive-Compulsive Problems and Stress Problems.

Critical Items

In addition to the scale scores, it is important to consider scores on individual problem items. Because they may raise particular challenges for management, it is especially important to note the problems listed below that were reported with scores of 1 or 2. Look at comments made by the informant on the form in relation to these problems to obtain more information about risks associated with the problems and the contexts in which the problems occur.

<u>Score</u>	<u>Problem Item</u>	<u>Score</u>	<u>Problem Item</u>	<u>Score</u>	<u>Problem Item</u>
2	18.HarmsSelf	2	67.RunAway	2	91.ThinksSuicide
2	40.HearsThings	2	70.SeesThings	2	105.UsesDrugs
2	57.Attacks	2	72.SetsFires
