APPLICATION FOR LICENSE TO REPRODUCE ASEBA SCORING

We strongly recommend that ASEBA forms be scored by the standard methods available for purchase at www.ASEBA.org, including ASEBA's rigorously tested scoring software. Technical support for these scoring methods is generally free. ***Completion of this application is not necessary if you use one of the standard ASEBA scoring methods.***

If you submit an application for a license to create non-ASEBA software for scoring ASEBA forms and are granted a license, you will receive an ASEBA Score Comparison Data Suite with the license. This Suite must be used to compare scored output from your non-ASEBA scoring program with scores produced by ASEBA software. Each Suite includes:

- Scripts that describe various test conditions for the ASEBA form licensed to you
- PDF files of ASEBA forms with ratings for each test condition
- A set of unscored data for test conditions in several formats to import into your software. The data set includes a file of T scores for each gender/age group (e.g., 4 gender/age groups for the CBCL/6-18)
- A set of scored data based on the unscored data set to facilitate comparison with scores produced by your software
- File format definitions for both unscored and scored data sets
- Excel ® T-score look-up tables, plus percentile look-up tables and a Manual for the ASEBA form licensed to you.

Licenses are available for:

1. **The following current ASEBA forms:**
   - Child Behavior Checklist/1.5-5
   - Caregiver-Teacher Report Form/1.5-5
   - Child Behavior Checklist/6-18
   - Teacher's Report Form/6-18
   - Youth Self-Report/11-18
   - Brief Problem Monitor Forms for Ages 6-18 (BPM-P, BPM-T, BPM-Y)
   - Adult Behavior Checklist/18-59
   - Adult Self-Report/18-59
   - Brief Problem Monitor Forms for Adults (BPM/18-59)
   - Older Adult Behavior Checklist/60-90+
   - Older Adult Self-Report/60-90+

Technical support for non-ASEBA scoring may be available at a chargeable rate.

User Qualifications

The proper clinical and research use and interpretation of ASEBA instruments require knowledge of the theory and methodology of standardized assessment, as well as supervised training in working with the relevant kinds of clients. The training required may differ according to the ways in which data are to be used. Graduate training of at least the Master's degree level would ordinarily be expected. No amount of prior training can substitute, however, for professional maturity and a thorough familiarity with the procedures and cautions presented in ASEBA Manuals.
